**Hinge Replacement Tools:** 

• Phillips head screwdriver

#### **Hinge Adjustment Tools:**

- Allen wrench
- Wood block
- Pry bar

## SWINGING PATIO DOOR HINGE REPLACEMENT AND ADJUSTMENTS

#### HINGE REPLACEMENT:

Note! Replace one hinge at a time or remove the panel for easier access.

- Open the door and remove the screws with a phillips screwdriver from both leaves and remove.
- 2. Install a like hinge in the same location and secure with the provided screws.
- Adjust the new hinges as necessary. See our separate document for details.

## **HINGE ADJUSTMENTS:**

 The top and bottom hinges adjust horizontally. The middle hinge(s) adjust vertically. If the door has two middle hinges, only one will be adjustable.

- To adjust the top and bottom hinges, insert a 3/32" allen wrench into the adjustment nut and turn clockwise to move the panel away from the jamb and counterclockwise to move it toward the jamb.
- 3. Before adjusting the vertical height of the door, lift the weight off of the panel, being careful to not damage the sweep on the bottom of the door.
- To adjust vertically, insert
   a 3/32" allen wrench
   into the adjustment nut
   and turn clockwise to
   move the panel up and
   counterclockwise to move
   it down.
